A Cohesive New Force Kiwi Labels & Mark-it Labels

Mark-it Labels opened for business in 1997. The company grew quickly, servicing clients throughout New Zealand, designing and manufacturing labels with service provided by teams based in both the North and South Islands.

For decades, Mark-it Labels delivered a well-balanced service capability. Large enough to reliably manufacture significant label runs to satisfy large international brands, yet agile enough to be flexible and friendly for smaller local clients.

In 2017, Kiwi Labels and Mark-it Labels decided to bond, and it has been a win-win for all. All sales and production staff stuck around, all existing stock products continued as before and customers enjoyed the same product pricing as previously.

We have now adhered together under one roof at 6 Mary Muller Drive, Heathcote, in Christchurch. This has meant that we have been able to expand our digital and flexo full colour print capabilities. We have an improved, A-class, full service VIP thermal print, parts, service, ribbons and bureau offering. We provide highly embellished labels and have just landed the latest and greatest extended content label content press (ECL).

We've bonded well and are enjoying being together. We still have the same great people answering the phones, the same hard working team in the factory and the Mark-it brand is not going anywhere. They have slotted in very nicely at Kiwi Labels.

Feel free to visit us at our new site or drop us a line anytime. You will see the full suite of our products on our website www.kiwilabels.co.nz. You can also get hold of Tarn and Lesley on 03 384 2903 or email them at tarn.wolfe@kiwilabels.co.nz and lesley.brown@kiwilabels.co.nz.

Kind regards

The newly adhered team,
Mark-it & Kiwi Labels

Thanks for taking the time to look through the Kiwi Labels 2019/20 Nursery Catalogue. It showcases a specific range of labels, tags, ribbons and printers which we supply ex-stock to the New Zealand market.

Prices are effective from the 1st March 2019.

At Kiwi Labels our main business is providing custom-manufactured labels to three sectors - food and beverage, thermal labels and tags, and short-run digitally-printed custom labels. We offer a range of label treatments - from foils to specialty varnishes, embossing to laminates – with digital and flexo production capabilities. Simply ask us to quote.

We appreciate your business.

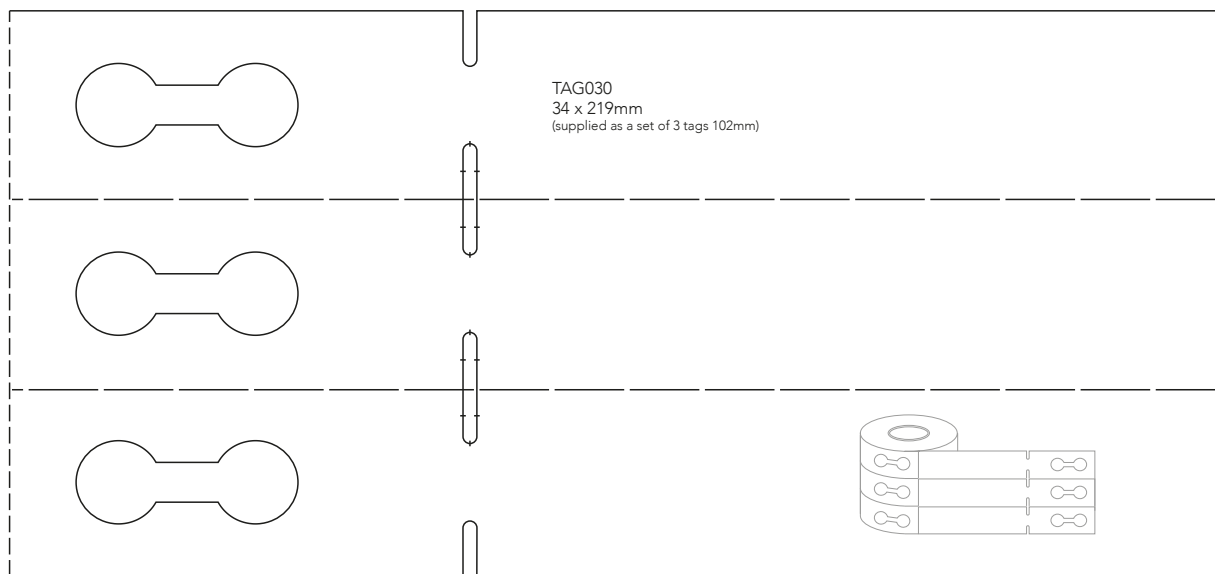

kind regards.

Guy Phillips

GODEX EZ2250i

The ideal printer for plant nurseries and pack-houses. Featuring a robust and simple design and a user-replaceable print head.

GODEX G500

The G500's 300m ribbon, plus optional External Label Roll Holder, provides maximum printing volume at a great price. Strong and stable mechanism for long term reliability.

GODEX DT4x

Small footprint makes this simple direct thermal-only printer ideal for address labels. Excellent Datamax emulation – works well with freight company software such as Mainfreight Freman Web.

GODEX ZX420i

This compact and robust printer is easy to use thanks to simple ribbon and media loading and an Auto Calibration button. This is the ideal printer for plant nurseries and pack-houses alike, where space is at a premium.

TOSHIBA B-FV4D

Compact, stylish and unobtrusive, yet powerful and flexible for any environment and application.

TOSHIBA B-EX4T1

Reliability and performance usually come at a cost but, with B-EX series, premium capabilities come as standard, essentially lowering initial capital outlay and future-proofing your investment.

TOSHIBA B-FV4T

Compact, stylish and unobtrusive, yet powerful and flexible for any environment and application.

TOSHIBA DB-EA4D

The compact, rugged and robust DB-EA4D double-sided label printer has been designed to offer a low-cost and green solution for applications requiring dual output. With user-friendly operation and high-speed printing, this innovative technology provides a reliable and efficient alternative to traditional single-sided solutions.

- On demand variable information printing

Our onsite VIP Bureau caters for the small to medium client where the scale of their business does not yet warrant the purchase of printing machines nor warrants their time and effort to print labels for their products.

This service is especially ideal for small and startup companies not yet ready to spend a lot of money on printing equipment and labels. It also allows the medium sized company to have their labels printed without the hassle of employing extra personnel, carrying label stocks and spending time and the effort to administer such an arm of their businesses.

Our experienced printers will take care of all your printing needs. Overprinting can be done on blank and pre-printed labels. Contact us for a quote.
