

Glassine Liner Recycling Scheme

Our commitment to sustainability

By 2025, we are committed to divert 500 tonnes of glassine liner from landfill to our KiwiCycle Program.

As a member of The Packaging Forum, Kiwi Labels supports the vision that by 2025, all packaging in New Zealand will be reusable, recyclable or compostable.

Kiwi Labels' **Glassine Liner Recycling Scheme** plays its part in supporting a circular economy by turning waste into a resource.

Landfill is currently the only way of disposing label waste in New Zealand. With our innovative return to source recycling scheme, landfill waste can be avoided by taking self-adhesive label by-products and giving them new life as paper, composite material, or energy.

The label waste is collected and returned in bulk back to a European based company who are experts in recycling. Our contact utilises its extensive collection network to facilitate cost-effective liner recycling and every year, over 10,000 tonnes of liner is collected and recycled into high end gloss paper used in magazines which can be recycled multiple times. **A truly circular recycling program.**

How does it work?

1. Sign up to our KiwiCycle Program when you order your labels from Kiwi.
2. We send you a box to store your glassine liner waste (includes lid and built-in pallet)
Size = 1150 x 1000 x 1000mm
3. You fill the box with Kiwi Labels glassine liner **only** (no cores, no labels).
Max. weight = 500kgs
4. Then freight it back to Kiwi Labels, Christchurch or Auckland: 11-13 Fisher Crescent, Mt Wellington 1060, Auckland

Cost to you: **\$480* per box**

Call us on 03 384 2903 or email info@kiwilabels.co.nz to sign up or for more information about our KiwiCycle sustainable label solutions. We offer the widest range of sustainable, biodegradable and compostable label materials in New Zealand.

*Excludes freight and GST. Prices valid from 01.10.2020 and are subject to change. Liner must be stored and sent back in the supplied Kiwi Labels Liner box. Maximum 500kgs for a full box. Liner only – all labels and cores are to be removed.
